EDUCATION

QUALIFICATION	INSTITUTE	YEAR	GRADE
B.Tech. in Electronics and Communication Engineering	ABES Engineering College, Ghaziabad, India	2023 - 2027	CGPA: 6.25
CBSE Class XII	Bal Bharati Public School, Noida, India	2021 - 2023	78%
CBSE Class X	Bal Bharati Public School, Noida, India	2009 - 2021	94.8%

SKILLS

Generative AI and AI-ML

- LLMs
- Agentic AI
- Fundamentals of AI-ML
- Prompt Engineering
- Automation
- Building and training AI models
- No-code development or 'Vibe coding'
- Azure and AWS
- Edge Impulse
- Fine-tuning
- Reinforcement Learning
- Workflow Orchestration
- Automated Pipelining
- Prompt compression
- Query optimization
- Augmentation of LLMs

Electronics & Circuit Design

- Electronic Devices
- Analog Circuits
- Digital System Design
- Integrated Circuits
- VLSI Technology
- LTSpice

Programming & Cyber Security

- Python Programming
- C Programming
- C++ Programming
- Cyber Security

Signals & Communication

- Signal System
- Communication Engineering
- Digital Signal Processing
- Optical Communication
- Network Analysis & Synthesis
- Fundamentals of Cellular Communication
- 5G communication
- Verilog

Embedded Systems & Microprocessors

- Sensor & Instrumentation
- Microprocessors
- Microcontrollers
- Embedded Systems and IoT

CERTIFICATIONS AND TRAININGS

DeepLearning.AI (Industry-Leading AI Courses):

- Generative AI with Large Language Models
- Building and Deploying Multi-Agent Systems (CrewAI partnership)
- Fine-tuning and Reinforcement Learning for LLMs (AMD partnership)
- Building with Llama 4 (Meta partnership)
- Agent Skills (Anthropic partnership)
- Building and Training an LLM with JAX (Google Gemini partnership)
- Workflow Orchestration and Automated Pipelining using Apache Airflow (Astronomer)
- Building Your Own Database Agent (Microsoft partnership)
- Building AI Browser Agents (AGI Inc. partnership)
- Prompt Compression and Query Optimization (MongoDB partnership)

Cloud & Enterprise AI Platforms:

- AWS: Generative AI on SageMaker, Agentic AI on AWS, Prompt Engineering, Automation with Amazon Nova
- Microsoft Azure: AI Applications and Agents on Azure
- NVIDIA: Introduction to CUDA, RAG for LLMs, Agentic AI, Making Agents Reliable with NeMo

Edge AI & Hardware Acceleration:

- Qualcomm: AI on Mobile Devices, AI Hub, Windows on Snapdragon
- Arm Education: Machine Learning at the Edge, IoT Application Development, Microprocessors

Academic & Government Initiatives:

- MIT: Introduction to Deep Learning
- iHUB DivyaSampark (IIT Roorkee + Govt of India): Python for Data Science and Machine Learning

COURSES STUDIED

- | | |
|--------------------------------|-----------------------------|
| • Sensor & Instrumentation | • Signal System |
| • Electronic Devices | • Cyber Security |
| • Digital System Design | • Integrated Circuits |
| • Network Analysis & Synthesis | • Microprocessors |
| • Python Programming | • Microcontrollers |
| • C programming | • Embedded systems and IoT |
| • C++ programming | • VLSI technology |
| • Communication Engineering | • Digital Signal Processing |
| • Analog Circuits | • Optical Communication |

CO-CURRICULAR

- **VICE CAPTAIN OF THE COLLEGE FOOTBALL TEAM** – Led team strategy, motivated players, coordinated training sessions, maintained discipline, supported captain, improved performance, and contributed to successful tournament outcomes consistently.
- **EMCEE IN MULTIPLE SCHOOL FUNCTIONS** – Served as an emcee in multiple school functions, confidently hosting events, engaging audiences, coordinating programs smoothly, and ensuring successful execution through effective communication, stage presence, leadership skills, and teamwork abilities.
- **HEAD OF THE SCHOOL'S QUIZ CLUB** – As Head of the School's Quiz Club, I organized inter-school competitions, mentored participants, prepared challenging questionnaires, and promoted teamwork, critical thinking, and a culture of knowledge-sharing among students.
- **ACHIEVER IN CRICKET AT AN ACADEMY LEVEL** - Achiever in cricket at academy level, demonstrating exceptional discipline, teamwork, and consistent performance in competitive matches while developing strong technical skills, leadership qualities, and a passion for continuous improvement.

ONGOING PROJECTS

- **Multi-Agent Research Assistant System**
Technologies: CrewAI, Claude Sonnet 4.6 (Anthropic), MongoDB, Python, RAG
- **Edge AI Object Detection System**
Technologies: Llama 4 (Meta), Edge Impulse, Qualcomm AI Hub, TinyML, IoT
- **Production ML Pipeline with Automated Orchestration**
Technologies: Apache Airflow, AWS SageMaker, JAX, Python, Docker
- **AI-Powered Browser Automation Agent**
Technologies: Claude Sonnet 4.6, Browser Agent API, Selenium, Python
- **Database Query Agent with Natural Language Interface**
Technologies: MongoDB, Hugging Face Transformers, Microsoft Database Agent, Python, Query Optimization
- **Other Completed Projects:**
 - Disk Cleaning Software with secure data erasure (Smart India Hackathon 2026 College Finalist)
 - Rain Sensing Automatic Car Wiper using Arduino UNO and servomotor
 - Steam-like Database System connecting Python and MySQL
